

FIRE & SECURITY MATTERS AWARDS 2021

ENTRY CRITERIA

FIRE SAFETY SYSTEMS INSTALLER/INTEGRATOR OF THE YEAR

SPONSORED BY APOLLO FIRE DETECTORS

This category is designed to recognise the skills and quality of work carried out by an installer or integrator when installing a fire safety system. The installation of these products must have taken place since 1 January 2020.

Any installation or project prior to this date are not eligible for entry.

Key tips for your entry

1. Keep information simple

Please keep your sentences short and easy to understand. Not all of the judges are technical experts so please don't assume they will know acronyms or technical lingo. Simply submit your text in language that is clear, precise and simplistically highlights the merits for its submission.

2. Installation must be new

We will disqualify any entry that related to an installation prior to 1 January 2020 so please ensure that your entry meets this criteria or it will not be accepted. If it is found to have been installed prior to that date you will be disqualified.

3. You do not have to be a Fire Industry Association member or a client of Western Business Media to be eligible to enter the awards.

4. Provide detail about the performance of the individual who carried out the installation

The judges need to know details on how the individual has made a positive impact when carrying out the installation of a fire safety system. Please provide verifiable evidence that their contribution has directly resulted in the effective installation of the system to the highest standards

5. Legal proceedings If your company has been subject to any prosecution in relation to fire safety law or health and safety law since 1 January 2020, or has been subject to any enforcement notices, then your entry will automatically be disqualified.

The following entry questions are to be used for all the Product categories below:

Nominee Name

Nominee Job Title

Organisation Name

Company Website

Q1. In no more than 250 words, please give up to four examples of how the individual successful carried out the installation of fire safety systems.

Q2. In no more than 250 words, please give details of obstacles that the installer faced while carrying out the work.

Q3. In no more than 250 words, please give details of how these obstacles were overcome by the installer/integrator.

Q4 In no more than 500 words, please provide a testimonial or feedback from customer(s) who were involved in these installations

Q5 In no more than 50 words, please write a profile of the individual and why they are deserving of the nomination. This will be used for the judging panel as well as for publicity purposes on the Awards night
